FACT SHEET
SOLID WASTE PERMIT NUMBER 74-07
C&D LANDFILL

Owner/Operator: C&D Landfill, Inc.
802 Recycling Lane
Greenville, NC 27834

County: Pitt County

City: Greenville, North Carolina

Description

C&D Landfill, Inc. has applied for a Phase II expansion of the existing construction and demolition debris landfill, for an increase in the service area of the facility, and for an increase in the allowable daily disposal rate. The proposed expansion would increase the actual disposal area by 23 acres, for a total combined disposal area of 38 acres. The total landfill facility property, including the buffer around the disposal area, would increase by approximately 126 acres, for a total landfill property of approximately 160 acres. The total gross capacity of the Phase II expansion is 1,046,156 cubic yards, and the total disposal volume of the landfill facility (Phase I and Phase II) would be 1,888,156 cubic yards. The estimated life of the Phase II expansion would be approximately 15 years. The Phase I landfill is currently close to the end of its capacity.

The C&D Landfill is owned by C&D Landfill, Inc. and is located south of Highway 264, approximately 10 miles east of Greenville, at 802 Recycling Lane, Greenville, NC. The landfill is adjacent to the EJE Recycling Transfer Station. The C&D Landfill is permitted to dispose of construction and demolition debris, inert debris, land clearing debris, and asphalt.

The C&D Landfill has applied for an increase in the maximum tons per day disposal rate for the facility and an increase in the service area for the facility. In August 2008, the Pitt County Board of Commissioners amended the franchise for the C&D Landfill to allow an increase in the disposal rate and an increase in the service area for the facility. The amended permit will allow the facility to accept up to 300 tons per day for disposal, an increase from the previously approved rate of 200 tons per day, in accordance with the amended franchise. The amended service area for the facility would allow the disposal of waste that is generated by North Carolina counties within a 100 mile radius of the facility, an increase from the previously approved service area of the counties within a 50 mile radius.

The following counties would be included in the amended service area for the facility: Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Chatham, Chowan, Craven, Cumberland, Currituck, Dare, Duplin, Durham, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hertford, Hyde, Johnston, Jones, Lenoir, Martin, Nash, New Hanover, Northampton, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Sampson, Tyrrell, Vance, Wake, Warren, Washington, Wayne, and Wilson.

The Division has determined that the application for the Phase II landfill disposal area expansion, for an increase in the allowable disposal rate, and for an increase in the service area for the facility, which is a substantial amendment to the permit, complies with the requirements of the North Carolina Solid Waste Management Rules as codified in Solid Waste Management Rules 15A NCAC 13B .0531, et seq.

The Division of Waste Management has prepared a draft permit that is now available for public review and comment.

Permit Structure

The permit is divided into two parts, the Permit to Construct, and the Permit to Operate. The permit includes a list of Approved Documents, and specific conditions for the construction, operation, and monitoring of the landfill units. Owners are required to submit Permit Amendment applications for construction and operation of each stage of operation. Permits to Operate are issued for 5 year increments of operation.

Public Comment Period

North Carolina Solid Waste Management Rules require that the public be given an opportunity to comment on a draft permit for an expansion or a substantial amendment to a C&D landfill. The 45-day comment period begins on May 31, 2009 and ends on July 16, 2009 at 5:00 PM.

The application and draft permit is available for review by appointment from 9:00 a.m. to 4:00 p.m., Monday-Friday, at the Division of Waste Management, 401 Oberlin Road, Suite 150, Raleigh, NC. The administrative record including the application, fact sheet, and draft permit may be viewed online at <http://www.wastenotnc.org/sw/swdocuments.asp>. Select 7407 in the permit box and then click Search Documents.

Persons who wish to comment on the draft permit or to object to the permit issuance should submit their comments in writing by July 16, 2009 at 5:00 PM. Comments should be sent to the address shown below and include the permit number. All comments received within the 45-day period will be considered in making the final determinations regarding the permit.

Public Hearing

A public hearing has been scheduled for Tuesday, June 23, 2009, at 6:30 PM at the Whitehurst Lake House, 903 Whitehurst Lane, Washington, NC 27889. Interested parties may submit oral or written statements and data concerning the proposed new facility permit. Persons wishing to speak may register at the hearing. Five (5) minutes will be allotted per speaker. Interested parties may submit written statements and data concerning the proposed new facility permit to the division contact at the address shown below.

After the close of the public comment period and after consideration of all comments, the Solid Waste Section will issue a permit decision. Each person who has submitted a written request for notice of the permit decision shall receive written notification of the decision.

Division Contact

Comments and requests for more information should be sent to:
